

Woodwork Kitchens, Bedrooms & Studies

Woodwork is a family run company based in the heart of the Kent countryside. Established in 1993 we provide our clients with a very personalised service, from concept to completion. Our kitchen and furniture ranges have been developed to meet our customers exacting requirements whilst remaining affordable.

It is the quality of the product, the competitive price and our professional friendly service which has ensured that year on year over 85% of our work continues to come from customer recommendations.

Our experienced designers work with you to understand exactly how you would like your room to look and work. Then they merge your ideas and their knowledge to create a beautiful and practical solution. And your design and quotation are provided free of charge with no obligation.

Your cabinets are made individually for you by our craftsmen in our own workshops using only high quality materials. We compliment the wooden cabinets with a wide range of appliances from all the leading manufacturers, with traditional fittings - no flimsy plastic - and with a range of tried and tested worktops from beautiful woods to stunning granites.

Our professional fitters make the installation as seamless as possible and our painters will add the finishing touch by hand painting your cabinets in whichever colour or colours you chose. Colour consulting with your designer is all part of the service.

If you think we could help you with your home, do please call in to see us, or contact us at:

Woodwork Kitchens, Bedrooms & Studies

Our cabinets can be supplied in any wood but principally we work with:

Oak - Maple - Walnut - Tulipwood

The wooden cabinets are finished using either lacquer which is extremely durable and highlights the features of the wood grain, or oil which gives a natural, clean look with a soft sheen.

The hand painted cabinets are made from tulipwood and are delivered to you fully primed, ready for painting in your colour choice.

Any combination of imaginative colours can be used, although simple solutions often produce the most stunning effect. Special paint effects can also be incorporated and can be used on the whole room or just on individual pieces.

All our cabinets are built to last. The doors, frames and carcasses are made from wood, not melamine. They are supplied as complete units, no flat pack boxes to put together on site, and come with a choice of internal colour finishes. All the cabinets come with adjustable feet, and dovetailed drawers with either the slow close or more traditional wood on wood option.

Each cupboard is individually made for your room and can be any size you want, so we make sure we get the best use of the space available. An working around beams, alcoves or pipework is no problem. It's all part of the process - we work with your room to ensure any quirks or oddities are accommodated whilst remaining sympathetic to the period and style of your home.

Bespoke Kitchens

Every Woodwork kitchen is made individually for each client. To enhance your room further, we can incorporate bespoke feature pieces, or indeed design and make a whole kitchen to your specific requirements. So if you see something somewhere that is maybe stretching your budget, come and talk to us, we are sure you will be pleasantly surprised.

Consider beautiful round cupboards, ornate pillasters, hand turned wooden knobs, hidden drawers, handmade tables - the choice is endless. We can also mirror features and joinery already in your room to really tie it all together.

Please contact us to discuss how we can help you with your particular home.

Woodwork Bedrooms

The attention to detail you will find in our kitchens is also apparent in our bedroom furniture. Wardrobes, drawers, cupboards are all designed to your specification, not only the external appearance but equally important, the internal layout.

You decide on how much hanging space, how many shoe slots, the depth of the drawers and we will make it exactly as you need it.

Freestanding Furniture

Woodwork can make furniture for any room in your home - from wine racks to vanity units, benches to dressers, we are happy to provide you with a quotation.

Many of our clients like to design their own particular pieces, taking ideas from a variety of sources, and we are always happy to transform these into reality.

Supply and Fitting

All our furniture and kitchens are available on a supply only basis or supply and fit. Although we are based in Kent, we supply all over the country, and are happy to quote for fitting in all areas too.

Our fitters are family friendly professionals who understand about working in clients homes and are sensitive to their needs during the final stages of their project. They are used to working with other trades that may be involved during a fit and will always approach any problems which may come up with the customers best interest at heart.

Our reputation is very important to us and key to maintaining that is our customer care policy. So if anything unforeseen does come up on your project, you can be sure that we will be there to help resolve it.

A close-up photograph of a kitchen cabinet. The cabinet is painted a muted sage green. On the left, a cabinet door is partially visible, featuring a round, brushed metal knob. To the right, a wooden spice drawer is pulled out, revealing its interior. The word "SPICES" is engraved in a classic serif font on the front of the drawer. The top of the cabinet is finished with a dark, textured material, possibly stone or a composite material, which has a rounded, decorative edge. In the background, other white kitchen cabinets with similar knobs are visible, though they are out of focus. The lighting is bright and even, highlighting the textures of the wood and the paint.

SPICES

The Finishing Touches

Your designer will help you to pull together all the elements of your room, not just the furniture. Wall colour, flooring, textiles, other furniture, everything needs to be considered to ensure your room really meets and exceeds your expectation.

It is this extra attention to detail that sets Woodwork apart from the majority of kitchen companies. We work hard to help you every step of the way from paint and worktop samples to electrical plans and lighting advice. We are not afraid to advise you of the pros and cons of all the products we supply to help you make the right choice for your home.

The cabinet fittings and fixtures are a key part of this - there is a huge choice of handles, hinges, pullouts and gadgets on the market now. We make sure the products we recommend are well made, durable and practical for all our furniture ranges.
